## CAPTAIN BURNHAM IN TOWN.

TELLS A REPUBLICAN REPORTER ABOUT NEED FOR CABLE

Feeling on Mainland Relative to Chinese

Horror Supports McKinley's Policy.

Capt. W. D. Burnham, the well known soldier and business man, arrived in town on the Australia on Wednesday and is a guest at the Hawaiian hotel.

Captain Burnham is the manager of the recently organized American-Hawaiian Steamship Company. He is arranging for the initial run of the company's steamers. The American will start from here about September 1. Vessels will, after her departure, make the New York, San Francisco and Honolulu run every other month. The Californian was one of the new vessels of the company, but she was chartered by the Government after her trial trip and equipped as a freight transport. She arrived here last week, en route to Manila.

"I regret to say that they do not seem to think much of us in New York," said the captain to a Republican reporter yesterday, when queried relative to the financial outlook. "The fact is we are altogether too far away. People are not inclined to make investments where they can not promptly communicate with their managers, and where they have to wait a month or two for mail advice. We cannot expect to do much there until the cable comes. There is an absolute necessity for that."

Speaking of the situation in China, Captain Burnham said the feeling on the mainland is that all the Ministers at Peking, together with their families and attaches, had been killed.

"The awful tragedy has shocked the world, but there is no revengeful feeling. Of course there is an urgent necessity for more troops over there. Even Bryan, it is said, has so expressed himself. The conditions are very serious. The powers are not putting in enough troops."

Captain Burnham has lived in China and rather scorns the idea that the empire can be partitioned among the nations. It is his opinion that if the uprising should be general the nations will not be able to put enough men into China, especially not to partition the country.

"There is a population of 400,000,000 of people," said the captain. "How are they to be parcelled out? An army can be put over there to control the country for a time, but think of the men it would take to garrison the whole country. How could they hold on?"

"I think Peking should be the objective point for the foreign troops. The moral effect of capturing the capital would be very great."

"In the States the attitude of President McKinley is approved by the people. The universal sentiment is that we ought to protect only American interests and the lives of American citizens. Troops and munitions of war are being forwarded to China, and everything appears to be moving satisfactorily. I do not believe that the government intends to press into the service any mail steamers."

Captain Burnham will remain here two weeks and then visit Maui and Hawaii, and possibly others of the islands.

## ROBERTS ADVANCING

ON BOER POSITIONS.

Baden-Powell Announces Defeat of Strongly Intrenched Body of the Enemy.

LONDON, July 25.—The War Office has received the following dispatch from Lord Roberts:

"Vandermer West Station, July 24.—We made a general advance yesterday from the position we had been holding east of Pretoria since June 12. Ian Hamilton, from the north, reached Rustfontein, seven miles north of Bronkhurst Spruit, on July 22. This so completely surrounded the enemy's line of retreat that they abandoned the strong position they had been occupying in front of the Cape River. Stephen's brigade advanced yesterday unopposed to Elands River Station. Our right was protected by the First and Fourth Brigades of Cavalry, under French, and Hutton's Mounted Infantry. The former crossed east of Wilgees river. Telegraph and railway communications were restored last night."

"In the supply train captured at Rooval were 200 Welsh Fusiliers, most of whom had been prisoners. De Wet's force is continuing to move north-easterly. It was at Roovalport July 22, with Broadwood not far behind and Little's cavalry brigade following Broadwood."

Baden-Powell reports as follows: "Magata Farm, July 22.—Colonels Arey and Lushington, with 450 men, drove 1000 Boers from a very strong position and scattered them with considerable loss. Our casualties were six killed and nineteen wounded."

It is not clear whether the supply train and 200 Fusiliers mentioned in the above dispatch are identical with the train and 100 Cameron Highlanders, the capture of which was reported by Lord Roberts in his communication of July 22.

The following dispatch from Lord Roberts has been received at the War Office:

"Bronkhurst Spruit, Tuesday, July 24.—We marched here to-day. This is the place where the Ninety-fourth was attacked December 20, 1899. The graves of the officers and men are in fair preservation and will now be put into good order. The march was unopposed, but French's cavalry and Hutton's mounted infantry, making a wide detour on our right, met bodies of the enemy. These were driven back, leaving several dead and wounded. A good many were also captured. Our casualties were one killed. Broadwood reports that he captured five of De Wet's wagons to-day. He was waiting at Vrededorf until Little joined him."

## Good Medicine for Children

If you have a baby in the house you will wish to know the best way to check any unusual looseness of the bowels, or diarrhoea so common to small children. O. P. M. Holliday, of Deming, Ind., who has an 11-months-old child, says: "Through the months of June and July our baby was teething and took a running off of the bowels and sickness of the stomach. His bowels would move from five to eight times a day. I had a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the house and gave him four drops in a teaspoonful of water, and he got better at once." For sale by all dealers and druggists, Benson, Smith & Co., general agents, Hawaiian Territory.
